TRAINING**  
*Where theory becomes reality*

**Gain the Knowledge and Confidence**  
To Successfully Place Dental Implants

# Intensive 7 Day Live Implant Externship

Live Implant Training Institute is a private teaching facility founded in 2007 by Dr. Virgil Mongalo with the sole purpose of bridging the gap between theory learned in didactic implant courses and the clinical reality that can only be experienced by working on patients.

## A different perspective On continuing education

Over 1,350 dentists trained  
Over 25,000 implants placed  
2,750 sinus lifts performed

After two decades of teaching doctors the theory of implant surgery, we recognized that there was a gap between theory and clinical reality.

This is the reason why Live Implant Training Institute was founded in 2007 with the sole purpose to bridge this gap by allowing licensed dentists from all over the world to work on patients under direct supervision of board certified

oral maxillofacial surgeons and masters in oral implantology.

Our new facility located in Guadalajara, Mexico is equipped with a Carestream conebeam unit, digital panorex, Nomad digital x-ray system, monitors for every operatory, six semi-private operating rooms, conference room and lunch room.

## Doctors Trained Worldwide

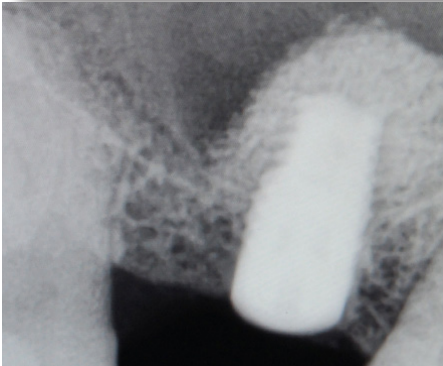

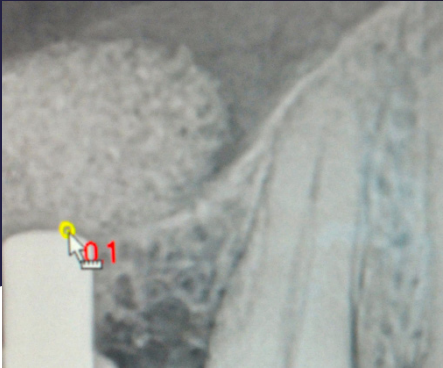

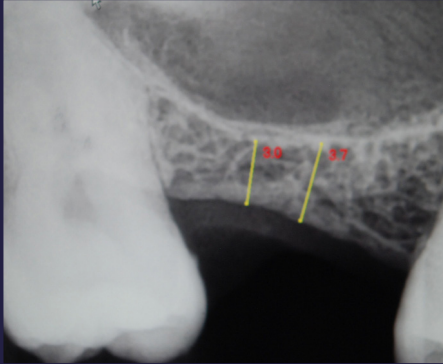

- > Each doctor will place 20-30 implants on patients according to their surgical level.
- > All surgeries are preformed under direct supervision of board certified Oral & Maxillofacial Surgeons and Implant Masters
- > Faculty/Student ratio is 2:1
- > Ct-scans are taken on all patients and surgeries are planned using 360imaging software
- > In house lab allows for fabrication of immediate loading prosthesis
- > 84 CE Credit Hours
- > Fulfils the clinical requirements of fellowships and/or mastership awarded by ICOI & AAIP
- > Ground transportation (airport, hotel and institute)
- > 3 daily meals
- > Dr. Mongalo textbook on implant surgeries

### Refund & Cancellation Policy

To cancel notify Ethel Pitochelli in writing. To receive full refund cancellations must be made 90 days prior to the 7 Day course, and 45 days prior to the intra-crestal course and the wisdom teeth course.

# Live Intra-Crestal Sinus Lift Course

## Clinical Aspect

- 3 days of surgeries on patients under direct supervision of board certified oral & maxillofacial surgeons
- Participants will operate on 4 patients, lift 4-6 sinuses and place 6-12 implants
- 36 CE Credit Hours
- Surgical procedures will include single and multiple intra-crestal sinus lifts on patients with 4-7mm of residual bone with simultaneous implant placement using Meisinger intra-crestal sinus lift kit with hydraulic lifting device

## Tuition: \$10,500

- Intra-Crestal manual
- 4 nights at Fiesta Americana Hotel
- Breakfast, lunch & dinner included
- Ground transportation
- Implants, bone and membranes used on patients

## Future Dates

> April 20-22, 2016

> September 14-16, 2016

More than 30 million Americans are missing all their teeth in one or both jaws

15 million people in the United States have crown and bridge replacements for missing teeth

3 million have implants and that number is growing by 500,000 a year

The success rate of dental implants has been reported in scientific literature as 98 percent

The estimated United States and European market for dental implants is expected to reach \$4.2 billion by 2022

# Live Wisdom Teeth Extraction Course

## Clinical Aspect

- 1 day of lecture on oral surgery protocols
- 2 days of surgeries on patients
- Surgeries will include:
  - Wisdom teeth extractions
  - Surgical extractions
  - Full arch extractions
  - Full arch alveoloplasty
  - Tori removal
  - Socket preservation
  - Minor bone grafting
  - Suturing techniques

## Tuition: \$6,950

- Oral surgery manual
- 4 nights at Fiesta Americana Hotel
- Breakfast, lunch and dinner included
- Ground transportation (airport, hotel and institute)
- Bone, membranes, surgical motors and surgical instruments used on patients

## Future Dates

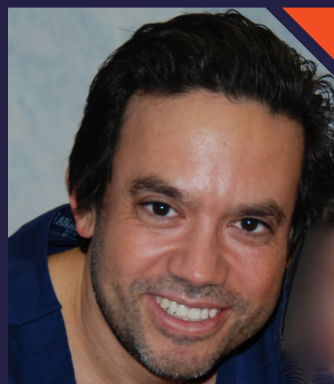

> April 17-19, 2016

> September 11-13, 2016

# Faculty

## The pillars of any teaching institution

**Dr. Virgil Mongalo**  
Chairman & Clinical Director

Is a pioneer in the field of dental implant education and his teaching methodology has been widely accepted by the dental community. Former associate professor of implant surgeries at the University of Florida department of advanced studies and adjunct professor at Georgia Regents University.

**DR. MARK STEVENS**  
OMFS

Chairman of Georgia Regents University department of Oral Maxillofacial Surgery. He was the past associate of surgery and director of Orthognathic Surgery and TMJ center at the University of Miami. Author of multiple publications.

**DR. SOLON KAO**  
OMFS

Diplomate of the American Board of Oral and Maxillofacial Surgery and also a diplomate of the American Dental Society of Anesthesiology. He is currently assistant professor of surgery at Georgia Medical College in Augusta. Dr. Kao lectures extensively at the AAMOS meetings.

**DR. HENRY FERGUSON**  
OMFS

He currently holds the positions of Vice Chairman and Director of Post Graduate training for Oral and Maxillofacial Surgery at Georgia Regents University. He is a diplomate of the American Board of Oral and Maxillofacial Surgery and also a diplomate of the National Dental Board of Anesthesia.

**DR. JOSEPH MONGALO**  
Co-Director

Co-Director of Live Implant courses taught in Mexico. Chief Oral and Maxillofacial Surgeon Resident at Guadalajara Medical Hospital. Diplomate of International Congress of Oral Implantology and Master of American Academy of Implant Prosthodontists.

**DR. ALEJANDRO GONZALEZ**  
OMFS

Board Certified Oral and Maxillofacial Surgeon. Vice Chairman of the department of Oral and Maxillofacial Surgery in Guadalajara Medical Center, Mexico. Post graduate studies in cancer oral facial reconstruction protocols and fellowship in pediatrics oral maxillofacial surgery.

**DR. CARLOS ROA**  
OMFS

Board Certified Oral and Maxillofacial surgeon. Chairman & Clinical Director of the department of Oral and Maxillofacial Surgery in Guadalajara Medical Center, Mexico. Post graduate studies in cancer oral facial reconstruction protocols and fellowship in pediatrics oral maxillofacial surgery.
